TYRECONTROL 2

A1900 - A1910

Bluetooth: Android, iOS

Precision Pressure: 0.01 Bar - 0.15 PSI

Temperature accuracy: 0.1 ° C

Units of measurement: Bar / PSI - ° C / ° F

Maximum pressure: 7 Bar / 100 PSI

Backlight

Power supply: 2xAA battery

- Pack:**
- 1 tire t° sensor A1890 (Optional for A1900)
 - 1 standard pressure connection (ST)
 - 1 quick pressure connection (RA)
 - 1 long rapid pressure connection (RA-L)

RA-L

RA

ST

TYRECONTROL 2

A1900 - A1910

1) Techniques

- Calibration of the automatic pressure at each start of the Tyrecontrol2
- Measure up to 3 temperatures on the tire surface
- Measure and adjust tire pressure
- Measures the temperature of the asphalt for each session
- Saves data and what time for each session
- Stores up to 495 data sets for 5 vehicles (5 × 99 sets)
 - 1 set = 2 sessions (before and after the race)
 - 1 session = maximum 12 temperature captures + 4 catches of pressure + 1 asphalt temperature capture

2) Bluetooth

Download and verify your data on a Smartphone or Tablet, thanks to our free APPs available on "Google play" and "Apple store". Our Apps can also generate CSV * files and exporters via Mails, WhatsApp, Airdrop, Dropbox, Bluetooth, etc ...
